Plumbing & Construction

Capability Statement

Company Overview

FNQ Footprints Plumbing & Construction is a proudly Indigenous-owned and operated business providing expert plumbing, drainage, gas fitting, carpentry, and construction services across Northern Queensland. Founded in 2016 by experienced plumber and drainer Damien Meredith, our mission is to deliver high-quality, efficient, and cost-effective services while creating employment and training opportunities for Indigenous Australians.

We service residential, commercial, and industrial clients, including local councils, government agencies, construction firms, and remote Indigenous communities. Our focus is on excellence, reliability, and sustainability, ensuring all projects are completed on time and within budget.

With a strong presence in regional and remote areas, we understand the unique challenges of working in diverse locations and are equipped to manage complex logistical requirements. Our team is dedicated to building long-term relationships with clients through open communication, innovative solutions, and a commitment to local procurement and workforce development.

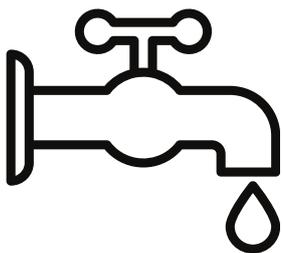

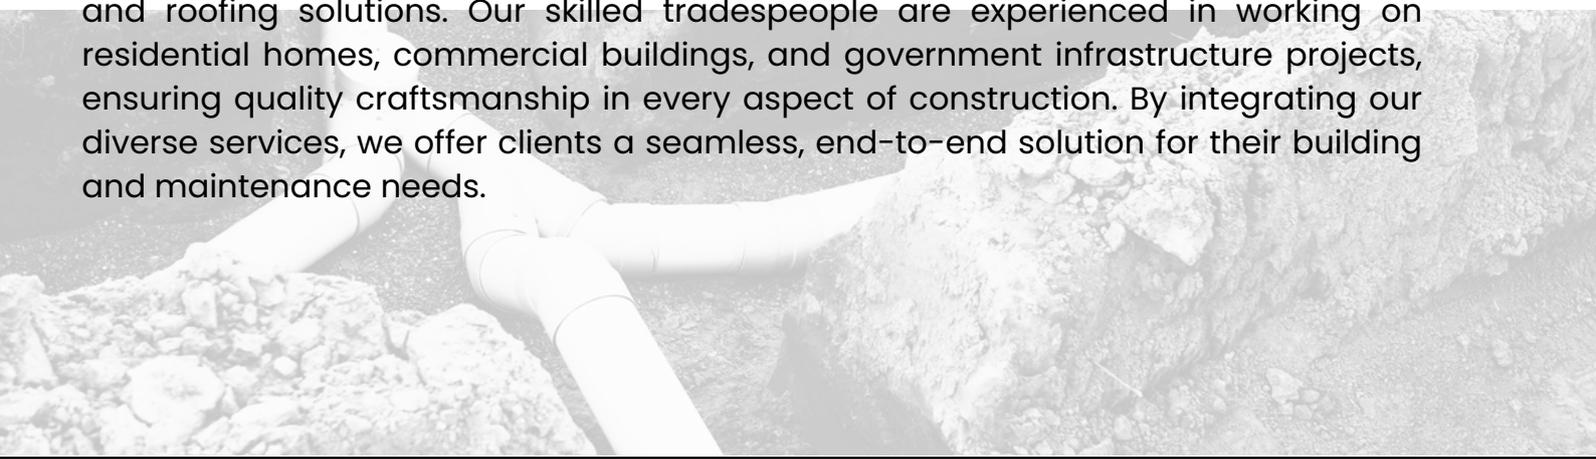

Pajinka, Cape York Peninsula

Our Services

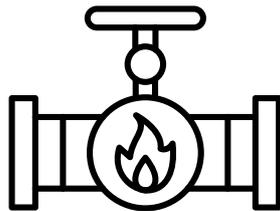

FNQ Footprints Plumbing & Construction delivers a comprehensive range of plumbing, gas fitting, carpentry, and construction services across Northern Queensland. Whether working on residential, commercial, or industrial projects, our team is dedicated to providing high-quality workmanship that meets Australian standards. With expertise in new installations, renovations, and maintenance, we ensure that every job is completed efficiently, safely, and within budget.

Our plumbing and gas fitting services cover everything from general repairs and maintenance to complex installations, including backflow testing, irrigation systems, environmental treatment plants, and gas appliance servicing. We are fully licensed and equipped to handle projects of all sizes, ensuring reliable solutions for both urban and remote communities. Our team specialises in working in challenging environments, delivering sustainable and compliant water and gas systems tailored to each client's needs.

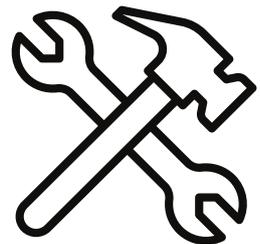

In addition to plumbing, we provide expert carpentry and construction services, offering everything from timber framing and decking to large-scale renovations and roofing solutions. Our skilled tradespeople are experienced in working on residential homes, commercial buildings, and government infrastructure projects, ensuring quality craftsmanship in every aspect of construction. By integrating our diverse services, we offer clients a seamless, end-to-end solution for their building and maintenance needs.

PLUMBING & DRAINAGE

GAS FITTING

CONSTRUCTION

Plumbing & Drainage

Our plumbing and drainage services provide reliable solutions for residential, commercial, and industrial projects, covering everything from general maintenance and repairs to complex installations, ensuring efficient water management and compliance with Australian standards.

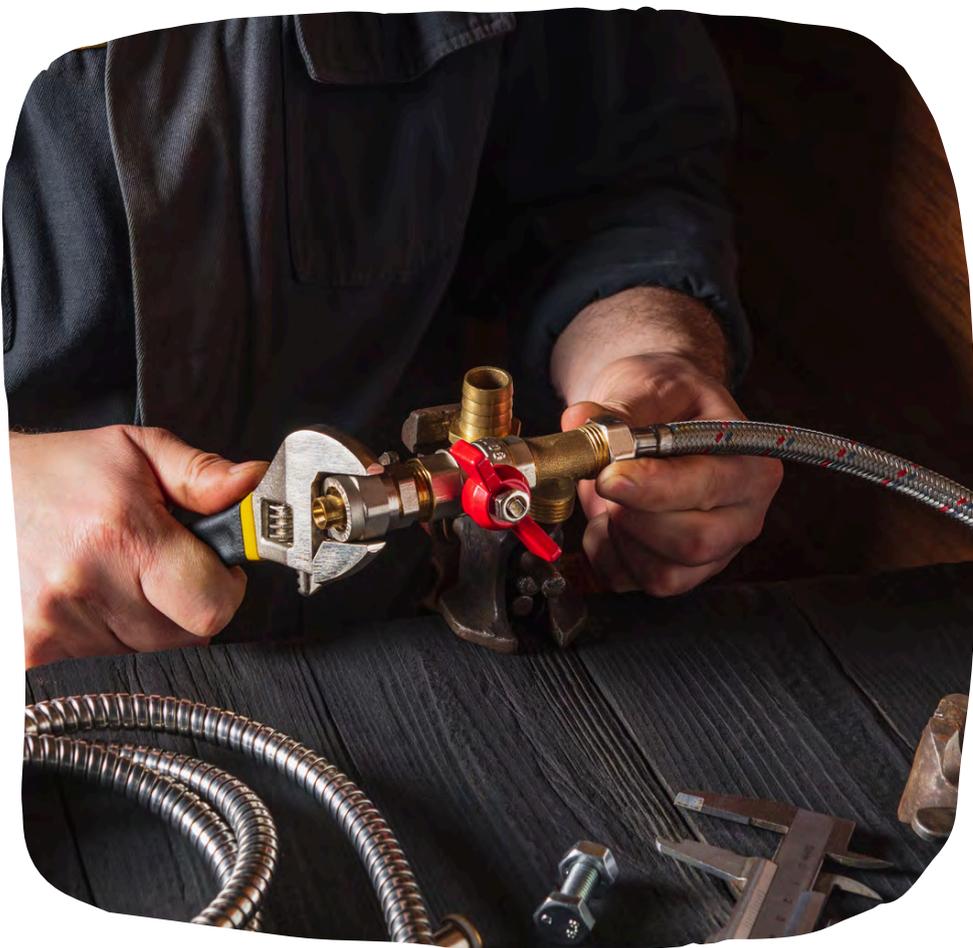

- Residential and commercial plumbing
- Irrigation systems (reticulation)
- Domestic wastewater and environmental treatment plants
- Pipe laying
- Septic tanks, rainwater tanks and water pumps
- Water heaters and solar hot water systems
- Bathroom renovations
- Repairs and maintenance
- Backflow testing and servicing

Gas Fitting

Our gas fitting services ensure safe, efficient, and compliant gas installations for residential, commercial, and industrial properties. From new gas line installations and appliance servicing to compliance checks and repairs, our licensed professionals provide reliable solutions tailored to meet safety regulations and client needs.

- Installation and maintenance of gas lines
- Gas appliance servicing and compliance checks
- Open-licensed gas fitting for residential and commercial projects

Construction

Our construction, carpentry, and roofing services deliver high-quality solutions for residential, commercial, and government projects across Northern Queensland.

From new builds and renovations to structural carpentry and roofing installations, our skilled team ensures durable and compliant construction tailored to each project's unique requirements. With expertise in timber and steel framing, decking, and roof repairs, we provide reliable craftsmanship that enhances both functionality and aesthetics.

- New installations, renovations, and general building works
- Roof installation, replacement, and repairs
- Roofing and gutter systems for residential and commercial properties
- Carpentry services, including framing, decking, cladding, and fit-outs
- Timber and steel structural work for housing and commercial buildings
- Custom-built solutions for renovations and extensions
