CAPABILITY STATEMENT

2026

Company Overview

Topfire Civil and Constructions Pty Ltd is an award-winning, Indigenous led, Supply Nation Certified and privately owned civil construction, poly pipeline and labour hire contractor based in Mount Isa and Wide Bay Burnett regions. With a highly skilled workforce and a modern fleet, and satellite offices in Central and Southeast Queensland, we service remote and regional Queensland across the mining, industrial, commercial, and government sectors.

Operating 24/7, Topfire delivers reliable, high-performance solutions with a focus on excavation, earthworks, concreting, pipeline works, plant hire, labour hire, and asset maintenance. With over 100 years of combined experience, our team is trusted for quality, safety, and responsiveness in challenging environments.

Our core services include:

- Poly pipeline welding, installation, and repairs
- Bulk earthworks, excavation, and roadworks
- Concreting for industrial and site infrastructure
- Plant and equipment hire (wet and dry)
- Skilled labour for projects and shutdowns
- Asset maintenance and site support

Topfire maintains a large fleet of Trucks & Equipment, available for projects of all sizes. We are proud to be a preferred contractor for Glencore Mount Isa Mines, Local Councils and other major clients in and around all districts.

Backed by a strong safety culture and certified systems, Topfire Civil and Constructions is committed to delivering dependable outcomes—on time, on budget, and to the highest standards.

Indigenous Led | Local Expertise | Mining & Government Focus | Award Winning

MOUNT ISA, OUTBACK QUEENSLAND

Our Services

Topfire Civil and Constructions Pty Ltd is a privately owned civil construction and pipeline contractor, delivering award-winning services to the mining, industrial, and government sectors across remote and regional Queensland. With a strong presence in North West Queensland and a reputation for reliability, safety, and quality, Topfire brings together specialist equipment, skilled personnel, and a deep understanding of the regional terrain and logistical challenges.

We offer a full suite of integrated civil and infrastructure services—from pipeline construction and earthworks through to ongoing asset maintenance and labour support. Whether engaged directly by project owners or as a subcontractor to major service providers, we deliver flexible, scalable solutions aligned to project timelines, budgets, and compliance standards.

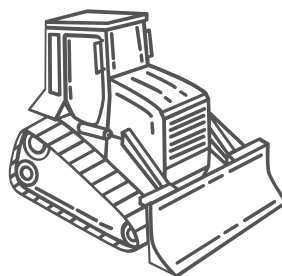

Our core service areas include:

- **Civil & Pipeline Construction:** Specialist capability in poly and steel pipeline installation, concreting, and full-spectrum civil works for mine and infrastructure projects.
- **Earthmoving & Plant Hire:** A modern fleet of over 60 units available for bulk earthworks, excavation, roadworks, slashing, and wet or dry hire with experienced operators.
- **Workforce & Asset Support:** Labour hire services, shutdown support, and long-term asset maintenance for remote site infrastructure, pipelines, and operational environments.

Topfire's diverse service offering enables us to provide end-to-end project delivery or seamlessly integrate into existing teams. Our track record includes long-term contracts with Glencore, regional councils, and major project proponents, underpinned by industry-certified systems in quality, safety, and environmental management.

CIVIL & PIPELINE CONSTRUCTION

EARTHMOVING & PLANT HIRE

WORKFORCE & ASSET SUPPORT

Civil & Pipeline Construction

Topfire is equipped to deliver comprehensive civil and pipeline construction solutions across mining, industrial, and government sectors—directly to project owners or as a trusted subcontractor for tier-one and tier-two service providers. Our Mount Isa base and regional presence give us a unique strength in servicing remote and regional Queensland with high standards and responsiveness.

We specialise in:

- End-to-end poly pipeline works, including welding, maintenance, repair, installation and refurbishment of pipelines ranging from small supply lines to heavy-duty tailings systems up to 610 mm diameter.
- Precision concreting services, from small pours (1m³) to large footings, driveways, pathways and structural works on mine camps and industrial projects.
- Full civil construction trades, including steel pipeline installation, site preparation, drainage and environmental mitigation works tailored to remote site conditions.

Proven Delivery | Flexible Pricing | Remote Capability

Earthmoving & Plant Hire

Topfire provides industry-leading earthmoving and plant hire capabilities, supported by a large, reliable machinery fleet and skilled operators with deep experience in remote Queensland operations.

Our offering includes:

- Earthworks and excavation services—from bulk cut/fill to drainage, trenching, and site formation—including blade grading, compaction and erosion control systems tailored for mining and industrial terrain.
- Flexible plant hire across wet or dry configurations: excavators, dozers, graders, loaders and support equipment are available with managed, certified operators as needed.
- Ancillary services such as tractor and slashing, road access creation, and mass haulage assistance in coordination with heavy haulage partners.

Why choose Topfire:

- An extensive fleet of Modern cutting-edge equipment that includes excavators, Loaders, Dozers, Graders, Trucks and Support machinery, ensuring consistent performance across all project scales.
- Skilled, certified operators trained and inducted to mine-site safety and operational standards—allowing rapid mobilisation and minimal supervision burden.
- The ability to deliver cost-effective hire arrangements via managed wet hire (equipment + operator) or dry hire (equipment only), tailored to budget, timeline and project complexity.

Workforce & Asset Support

Topfire's workforce and maintenance capabilities complement its core construction offering—ensuring the longevity and operational integrity of client assets, particularly in mining and council infrastructure environments.

This includes:

- Comprehensive labour hire supply (Labour Hire Licence # LHL-00658-B3K2G) of civil construction tradespeople, equipment operators, poly-pipeline technicians and support staff to augment internal or contractor workforces.
- On-site asset maintenance, including pipeline repairs, drainage repairs and stabilisation, minor concreting or civil works, and ongoing upkeep of infrastructure assets.
- Rapid shutdown support capability—re-mobilising personnel and equipment to complete urgent repairs or remedial works with minimal disruption to client operations.

Strengths and assurances:

- A stable, local team of skilled staff and contractors offering consistency and deep understanding of region-specific operational challenges
- Commitment to safety and compliance, with certified systems aligned to ISO standards (safety, environmental, quality), backed by third-party audit processes.
- Trusted by major clients including Glencore Mount Isa Mines, regional Councils and mining operations in the Mount Isa region with a strong track record of reliability and repeat engagement

- Basic Scaffolding SB
- General Safety Induction (Construction)
- Bulk Water Truck Operations
- Butt Weld Polyethylene Plastic Pipelines
- Certificate III in Civil Construction Plant Operations
- Certificate III in ESI Distribution (Powerline)
- Certificate IV in Training and Assessment
- Confined Space
- CPR & BFA
- Dogging
- Dozer Operations
- Drive Multi-Combination vehicle
- Driver's Licence
- Driver's Licence - HR
- Electrofusion Weld Polyethylene Pipelines
- Electrotechnology
- Engineering Tradesperson (Mechanical)
- Excavator
- Fire Extinguisher & Emergency Response
- Forklift Truck
- Front End Loader
- Generic Induction Metalliferous Core
- Licence to Perform High Risk Work
- Manual Handling
- Medical Surface
- Operate EWP
- Powerline (Electricity Supply) Tradesperson
- Qube Induction
- Remove Friable Asbestos
- Remove Non Friable Asbestos
- Road Roller
- S1, S2, S3
- Skid Steer Loader
- Slewing Mobile Crane 20 tonnes or less
- Slewing Mobile Crane 60 tonnes or less
- Supervise Asbestos Removal
- Vehicle Loading Crane
- Working at heights
- Workplace Health & Safety Officer

Our Difference

Proudly Indigenous Owned

We are committed to creating meaningful employment opportunities for Indigenous Australians and supporting local economic development. We are Supply Nation Certified.

Proven Industry Experience

Our team brings over a century of combined, practical experience in delivering high-quality earthworks and construction services across diverse and challenging environments.

Remote & Regional Specialists

With extensive experience operating in remote communities, we are equipped to manage complex logistics and deliver reliable outcomes—on time and on budget.

Driven by Safety and Sustainability

We prioritise safety, environmental responsibility, and full compliance with Australian standards, ensuring every project is delivered with integrity and care.

Choose Topfire for trusted expertise, reliable delivery, and high-quality workmanship built for regional and remote Queensland.
